

**2026-1**

JNLR Radio Listenership

**Press Release**

April 2025 to March 2026

## Ipsos B&A/JNLR 2026/1 Summary Results

The latest JNLR/Ipsos B&A report into radio listening is published today (14<sup>th</sup> May 2026). It covers the period from April 2025 to March 2026.

The latest results show 3.46 million listeners (15+) tune into radio every weekday – that is **daily radio listening at 77.8%** of all adults. Listening levels in the **past week** stand at **89.2%** of the population.

A total of c **16,700** people were interviewed during the survey period by Ipsos B&A, on behalf of JNLR - Joint National Listenership Research - that is commissioned by all national, regional and local radio stations, AAI, IAPI and Coimisiún na Meán.

The following tables show the key, topline results from the week-day report for the main radio stations at National level, within Dublin and Cork counties, and the South-East, South-West, North-West, North-East/Midlands, Multi-City and Dublin Commuter regions. (See p.12).

While Tables 1-4 show the proportion of adults tuning into the stations at some time during the day, the depth of listening or loyalty to various stations is best reflected in the share of listening achieved by each station, as shown in Tables 5-8, whilst Table 9 provides information on the Local Stations in each licensed franchise area.

*(Reference to change in this report relates to the last published report incorporating the period Jan to Dec '25. Figures showing the size of the increase/decrease reflect the movement since this last publication (book-on-book), rounded to 1 decimal place).*

A large majority of Irish adults – 77.8% (-0.3%) listen to the radio every day. More than half, 50.7% (-1.0%) tune into their local or regional station and 41.8% (+0.3%) listen to a national station. Among the younger market, 15-34-year-olds, 65.4% (-0.4%) listen to radio daily.

Irish radio audiences continue to listen to a significant amount of radio everyday – listeners tune in, on average, for more than 3.5 hours, (219 mins, -1) per day, per listener, during the prime 7am to 7pm time (*Irish Adults listening Mon-Fri*). In terms of share of all minutes listened in the country, National Radio currently has 46.2% share (+0.6%), while Local/Regional Radio holds the majority share position with 53.8% (-0.6%) in this reporting period.

Across the various regional areas throughout the country, National Radio holds the majority share position in Dublin (53.3%) and the greater Dublin Commuter belt (54.1%). On the other hand, Local/Regional radio is in the majority in the other regions throughout the country achieving its highest share in Cork (61.5%), in the North-West (59.8%) and in the South-West (59.5%) regions of the country. (See T5).

Among the younger 15-34-year audience, Local/Regional Radio is in the majority share position in all areas, achieving a combined share of minutes of 63.5% (-0.8%) versus 36.5% (+0.8%) for National Radio. In particular, the Local/Regional group holds its strongest share position among this age cohort in Dublin (72.6%), the Dublin Commuter area (68.1%) and the South-West area (67.7%). (See T7).

Considering the older 35+ age segment, Local/Regional radio also has the majority share among this cohort, 51.6% (-0.5%). However, in regional markets among this age group, National Radio holds the majority share of minutes in Dublin (58.7%), the Dublin Commuter region (58.8%), the Multi-city area (52.2%) and the South-East (51.9%). (See T8).

Local radio continues to perform strongly in the local radio markets across the country, with 34.5% of all adults in the country tuning into their local station every day. On the criterion of share of minutes listened during prime 7am to 7pm, local radio has a total share nationally of 37.0% while particular stations, Highland Radio and Radio Kerry, hold the majority share position in their respective franchise areas. (See T9).

Population estimates in this report are based on Labour Force Survey data (to Qtr 3'25). (See pg 12 for definition of radio broadcast regions).
